

*Dock Your Tablets with the One and Only...*

# ReadyDock™-LE

## ReadyDock™-LE stands alone in today's marketplace

ReadyDock was introduced to the marketplace last year and quickly captured the interest of major health care clinics throughout the United States.

This popular storage and charging unit is now available for the Motion Computing LE Series Tablets.

This attractive piece of furniture not only provides necessary storage and charging but also adds to the aesthetics of your office. They are available in a variety of configurations suitable for 5, 10, 15, or 20 tablets.

Good news for owners of the original ReadyDock. The new modules are the same size and can be integrated with your current unit.

Each case is constructed of quality maple hardwood and wood grain laminate.

*ReadyDock™-LE  
RD5-LE — Single Unit  
16 1/2" W x 20 1/4" D x 22 5/8" H*
